

## **Here are some ways you can help RTPnet and North Carolina nonprofit organizations.**

### **Encourage RTPnet membership**

Do you know of a church, social club, professional organization, service organization, or other noncommercial organization that could benefit from a Web presence or an email list? If so, help them get started using RTPnet's hosting services. RTPnet membership fees fund projects that help nonprofit organizations.

### **Become a member or make a donation**

You can make a cash donation to RTPnet. Please see our [Membership and Donation](#) page for details.

### **Donate computing equipment**

If you have computing equipment you no longer use, donate it to an organization that can get it to someone who needs it. See [Computer Donations and Requests](#) .
